

MICHIGAN  
DEPARTMENT OF TRANSPORTATION

SPECIAL PROVISION  
FOR  
**NOTIFICATION OF TRAFFIC CONTROL DEVICE COMPLETION DATE**

T&S:TSU

1 of 1

C&T:APPR:JAR:GEN 06-23-03

**a. Description.** Notify the Engineer, in writing, of the completion date for the following items of work on a location basis.

- Installation of any new electrical traffic control device (traffic signals, flashing beacons, advance warning flasher, etc.)
- Upgrade of any existing electrical traffic control equipment
- Removal of any electrical traffic control device
- Date of installation and removal of any temporary electrical traffic control devices required for staged construction.

Include a description of the intersection location (trunkline numbers and street names), MDOT Signal Plan Number, contract and project numbers, and completion date.

The Engineer will forward copies of the notification to the Region Engineer and the Traffic and Safety Support Area, Traffic Signals Unit.

**b. Measurement and Payment.** Providing the notification as described will be included in payment for the associated item of work.
